

SCE and RMEA

JOINT RATE COMPARISONS

As part of our mutual commitment to better serve customers, Southern California Edison (SCE) and Rancho Mirage Energy Authority (RMEA) have jointly created a comparison of our common electric rates, average monthly charges, and generation portfolio contents. To find your specific electric rate, please scroll down. The following rates are current as of 3/1/2019.

Definitions

Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS recovers costs of power purchase commitments that become stranded as a result of CCA initiating service. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.

All rate comparisons are calculated using average electricity usage for a typical customer within SCE's Baseline Region 15 (includes the City of Rancho Mirage). This comparison is based on billed usage from January 1, 2018 to December 31, 2018 and published rates as of March 1, 2019.
